Introduction

Why Amari?

1. No idea
2. Seriously, run

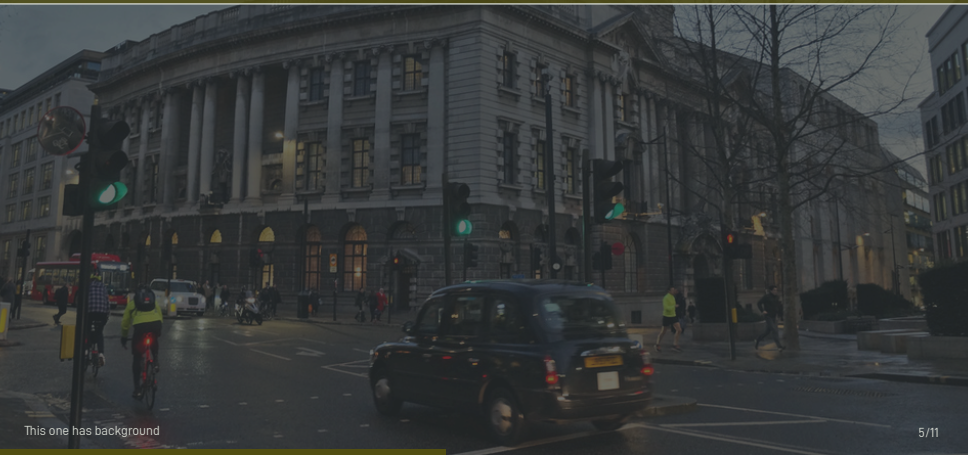

Why Amari?

1. Note that this slide is boring.
2. Observe that there are no actual bullets here.
3. Future work: add another bullet.

Why Amari?

- ❏ Seriously, it's worthless
- ❏ This can't even do sections and subsections properly without a custom function (fumi and subfumi, because author is a weeb)

Conclusions

Closing Thoughts

- ❏ Yay, Beamer!
- ❏ The layout is a bit based on Execushares, just a bit (I took their bullet points and footer)
